

The Aqua Lung Full Face Mask Bump Helmet was designed for professional divers using a full face mask in low visibility conditions or where overhead obstructions exist

- Excellent head bump protection in low or no visibility environments
- Fits great over a Full Face Mask
- Does not obstruct comms, side rails, or ambient breathing valve
- Easy single- hand release chin strap for emergency ditching
- Adjustable ratcheting head harness
- Internal removable pads to accommodate different size heads
- Two light rails – one each side
- Front camera mount
- Hook and loop patches for dept logo – sides and rear
- Reflective patches on each side
- Comes in two colors Hi-Viz green or all black
